EDUCATION

M.Sc. in Data Science, AI and International Business Management, GISMA University of Applied Sciences

Coursework : Data Engineering, Data Analytics, Business Intelligence

Activities: Applied AI and cloud-based data projects

Expected 2026

Bachelor of Information Science and Engineering, Visvesvaraya Technological University

2019 - 2023

Final Year Project: Real-time Sign Language Detection using Python, OpenCV

SKILLS

- | | |
|--|---|
| <ul style="list-style-type: none">• Programming: Python, SQL• ML/AI: Scikit-learn, TensorFlow, PyTorch, CNNs, RNNs• Data Handling: Pandas, NumPy, OpenCV, Feature Engineering | <ul style="list-style-type: none">• Visualization: Matplotlib, Seaborn• Databases: MySQL• MLOps Deployment: Data pipelines, Model evaluation |
|--|---|

EXPERIENCE

Machine Learning Intern SkillCraft Technology

Bangalore, India September 2024 - December 2024

- Optimized data pipelines using Pandas, **NumPy**, reducing processing time by 30%
- Enhanced ML model accuracy by 15% through fine-tuning with **Scikit-learn, TensorFlow**.
- Analyzed large datasets to extract key insights, improving business decision-making.
- Implemented feature engineering techniques, increasing model **performance and efficiency**.

Data Analyst Full Time ODA CLass

Bangalore, India May 2024 - October 2024

- Analyzed student **engagement and attendance data**, identifying trends that improved class participation by 25%.
- Processed and **visualized 100%** of teacher feedback, leading to curriculum adjustments that enhanced **teaching effectiveness by 30%**.
- Developed interactive dashboards and reports that reduced **manual data processing time by 40%**.
- **Automated data collection and reporting processes** using Python and SQL, improving efficiency by 50%.

PROJECTS

- **Genai-post-generator** : Developed an AI-powered tool to analyze LinkedIn influencers' writing styles and automate **70%** of post creation. Integrated **LangChain** for text generation and deployed using **Streamlit**. **GitHub:** <https://github.com/12-Mustafa/Genai-post-generator.git>

Cold Mail Generator : Built a tool that scrapes job listings and generates personalized cold emails with **82%** relevance. Utilized **BeautifulSoup, LangChain** for data extraction and text generation. **GitHub:** <https://github.com/12-Mustafa/Cold-Mail-Generator.git>

Sign Language Detection for deaf and dum. : Developed a deep learning model for real-time sign language translation, achieving **92%** accuracy. Implemented a **Convolutional Neural Network (CNN)** with **OpenCV** for video frame processing. **GitHub:** <https://github.com/12-Mustafa/Sign-Language-detection.git>

CERTIFICATIONS

°SAP Certified Associate - Data Engineer - SAP HANA(Present) °AWS fundamentals by AWS Restart °Secured 1 Place in Inter-collegiate project Exhibition °NPTEL certification on Data Science For Engineers °Python programming certification
